

EXTENDED MULTICLOUD GLOBAL CONNECTIVITY WITH LOCAL BELGIAN PRESENCE

Hybrid all-in-one IT solutions made easier,
quicker and more flexible than ever

Together, LCL and Equinix provide the best data center interconnectivity in Belgium, enabling you to achieve proximity to the multicloud and SaaS providers with one single connection on our platform.

We simplify your journey from unpredictable CapEx to fixed OpEx, while giving you the total scalability and flexibility to migrate successfully and achieve multicloud proximity. With a local presence that equips you with the potential for global expansion, we enable you to achieve faster time to market. We improve your security and our new offerings open the door to technological growth and performance improvement.

The challenges you face

Achieving a scalable cloud enablement

How can you rapidly achieve scalability and flexibility for successful migration, gaining multicloud proximity to execute workloads and support remote employees?

Accessing globally distributed resources

To remain competitive with faster time to market, how can you access several platforms and services, often globally distributed?

Gaining secure data centers

How can you ensure business continuity, spreading your mission-critical data across multiple, proximate data centers for easy backup and disaster recovery?

Improving end-user experience

How can you enable a productive and connected workforce, overcoming slow application performance and system downtime that result in loss of revenue?

The key benefits of our joint solution

Total scalability for your cloud projects

We enable easy, fast multicloud proximity with just one connection, allowing you to develop a hybrid workload placement strategy that maximizes business value.

Improved security

Ensuring your business continuity by spreading your data across multiple data centers, we provide the highest service levels to deliver easy backup and disaster recovery.

Virtually connected workforce

With network services proximate to cloud providers and end users, we improve performance with ultra-low latency and optimized network connectivity within our secure, managed ecosystem.

Local presence with global expansion potential

From Brussels, we provide fast connections to global cities including London, Paris and Amsterdam, directly connecting your digital business physically and virtually around the world.

One place to build your hybrid digital hub and connect anywhere, anytime

Our leading capabilities that enable your success

Multicloud-connected data centers in Belgium

LCL carrier-neutral data center facilities are based in Belgium, offering a wide range of telecommunications services. Together with Equinix, we offer multicloud interconnections, adopting SD-WAN, SDN and APIs to facilitate the implementation of a multiconnected environment for your business ecosystem.

LCL disaster recovery options and Equinix SmartKey™

LCL guarantees business continuity for our data centers by providing 24/7/365 support. Global, SaaS-based, secure key management and cryptography service, Equinix SmartKey, is offered on cloud-and-carrier-neutral Platform Equinix® and simplifies data protection across any cloud architecture.

Platform Equinix

Platform Equinix is the global platform for digital business integration and connection, providing an infrastructure built for distributed scale and security. Directly connecting your digital business physically and virtually around the world, Platform Equinix hosts an advanced portfolio of digital services and ecosystems so that you can securely scale your digital infrastructure, wherever opportunity leads.

Equinix Cloud Exchange (ECX) Fabric™

ECX Fabric connects distributed infrastructure and digital ecosystems on Platform Equinix via global, software-defined interconnections. ECX Fabric is designed for scalability, agility and connectivity over a self-service portal or API. Through a single port, discover and reach anyone on demand, locally or across metros, to drive your digital future forward.

About LCL

With many years of data center and colocation experience and know-how, LCL have four independent data centers in Diegem, Antwerp, Aalst and Huizingen. Our dynamic team and reputable service provision underpin our growth into a company with customers in many different sectors. We guarantee business continuity by deploying high quality infrastructure, and by providing 24/7/365 support to our customers.

About Equinix

Equinix connects the world's leading businesses to their customers, employees and partners inside the most interconnected data centers. In 55 markets across five continents, Equinix is where companies come together to realise new opportunities and accelerate their business, IT and cloud strategies. We operate the only global interconnection platform, sparking new opportunities that are only possible when companies come together.
